

Weekly Report of Kalimpong Animal Shelter (KAS)

We bring to you good news on recent adoption of a kitten who was surrendered to KAS many weeks ago along with his siblings. All these kittens were fully weaned and ready to go out on adoption, but none of them was adopted except this one there, who was adopted this week. The kitten has been adopted by a good family where the kitten will be loved and accepted the way he is. We hope the others too will find a Home in the coming days.

This week, we have also visited a Home close by to meet the puppy who was adopted from KAS two months ago. On our visit, we were pleased to see the puppy growing up fast and her small playful activities. When we met her there, we found her playing with the cow. Her owner said, she liked to sit by the cow shed during the day as she loved cows. The puppy is very happy in her new home as she is getting good nourishment and care from her owner.

General staff meeting was presided over by Mr. Arpan on Monday afternoon. The meeting in brief was a revision of work activities of KAS and previous minutes on getting LIGHTS for the Operating Theatre, new T-shirts for the KAS staff, timings and cleaning etc. A few other minutes revolved around wearing masks and sanitation as India is experiencing the second wave of Covid-19, which is said to be more deadly than the first wave.

Two emergency cases of cats with 'dystocia' were brought at KAS for their treatment. Dystocia is difficult /abnormal birth. Vet, Dr. Deo checked upon those cats and suggested the owners that the cats should undergo surgery. He also suggested to get them spayed so they don't suffer again. Both these cats had dead foetus in the womb which was removed and later, the cats were spayed successfully by Vet Deo.
